Subject: Fwd: gGold King spill and DWSRF Needs Survey

Sorry to have missed our meeting. Currently on planned leave until Monday.

Exchanged voicemail with George K , director of Public Affairs at State Board and Mic Stewart of MET regarding Gold King. May come up on Friday with Mike and John K.

Below is a brief statement on impacted water systems.

Navajo Tribal Utility Authority has initiated sampling of the three wells at Montezuma Creek and at the intake of the Mexican Hat surface water plant. Samples were collected on Sunday, Monday and Thursday. The samples will be analyzed for the full suite of drinking water regulated IOCs, VOCs and SOCs. Discussions underway to confirm sampling site locations for mapping purposes.

Navajo Generating Station located on the Navajo Nation and regulated by EPA Region 9, will be initiating monthly raw and treated sampling of its Lake Powell surface intake starting Thursday, August 13th. They will conduct the suite of inorganics analysis and will forward data results to EPA. Contact: Rob Peterson (928) 645-6384.

Subject: DWSRF Needs Survey

Greetings,

Good news! I just heard from HQ...Chuck Job...that the submittal date for the DWSRF Needs Survey has been extended to February 29, 2016. I hope this will give California the extra time needed to complete and submit a robust survey.

Please feel free to give me a call if you have questions and GO SURVEY!
